

DECEMBER 2021

AREA REP'S CHRISTMAS MESSAGE

I have just been watching a pair of crows goading a squirrel, who was trying to find somewhere to bury a Rich Tea biscuit, which he had clamped across his mouth. Someone had put it out for the birds, presumably. Anyway, enough of Potters Bar Countryfile.

I would like to wish everyone a great Christmas and a healthy New Year.

Doug

Sixteen of us enjoyed our traditional Mince Pie night on Monday 6th; a good turnout for a chilly December evening.

The Museum currently has two cars with early connections to Stirling Moss on loan at the moment which make an excellent addition to the display.

Several members went to have a look at Keith O's recent acquisition, a Model A Ford.

Some of you will know that George Dimitriades has had severe back trouble over the past few months. Doug spoke to him a few days ago and he is still living on painkillers unfortunately. He sent his best wishes to everybody. Brian Kingsley and Ron Risk also asked us to pass on Season's Greetings. I recently had a phone call from Ann Gomez and she also sends good wishes to everyone.

With restrictions once again being imposed, we sincerely hope that Christmas still goes ahead smoothly for everyone. It seems amazing that it was only a year ago that a lady received the first vaccine.

Dates will be appearing for next year's events soon and hopefully we can look forward to a good season in 2022.
