

## July 2023

When I wrote last month's Newsletter, there had been a forecast of showers for Datchworth and Luton but, by the time the weekend arrived, the heat had set in and, as a result, Doug and I gave them both a miss. I gather that there were plenty of cars at Datchworth but it was very hot. No-one went to Luton as there is very little shade there.

Last year Hoddesdon was extremely hot but this year temperatures were much more bearable. Six of our cars were in the usual place by the war memorial where we were joined by a few other Jaguars and a Mustang. Brian W was both surprised, as well as extremely pleased when the Mayor chose his XK150 as car of the day, especially as he had only given it a quick wipe over after he and Mandy had enjoyed a tour of the Pyrenees.

The following day, a few members went to Area 33's day at RHS Hyde Hall which, I gather, was very successful.

Only a few future events to mention this month, the first being the Kimbolton Fayre on 16th July. Our numbers for this are well down, so there will be space on our plot. Contact me if you are interested. Last year the heat was almost unbearable but this year we will be in an area where there are more trees.

Alan has told us about a free car show on Saffron Walden Common which takes place on Sunday 13th August.

The show at Tewin is on the 20th August and I expect most people have already booked.

On the same day, there is a show at Elm Court, Potters Bar, EN6 3BP, 12pm-5pm. Although this is only five minutes from our home, we will miss it, as we will be at Tewin. We did visit it one year when it didn't clash and found it an enjoyable show.

We had a good turnout on Monday 3rd, including three new visitors, who will hopefully become members.
