

DECEMBER 2022

AREA REP'S CHRISTMAS MESSAGE

I hope you are all keeping nice and warm in this cold spell. Unfortunately our boiler packed up on us last Saturday morning, so despite a couple of electric fires and our open coal fire, it was pretty chilly. To our surprise, a local plumber came and found out the problem on Sunday afternoon, ordered the new part and had us up and running by the middle of Monday morning. We were very grateful.

Don't forget that those of you with older cars might need to keep the hydraulics free on the brakes during the winter.

I hope that next year will be better than the current strike atmosphere and we will be looking forward to using our cars again.

With best wishes for a Happy Christmas and Healthy New Year

Doug

It was gratifying to have such a good turnout for our last meeting of the year. Plenty of mince pies, sausage rolls and chocolates etc. were enjoyed by all.

Not all of you will be aware that we will no longer be having meetings in January and February. This decision follows a suggestion from Barbara earlier this year when costs were under discussion. As our membership is not as big as in the past, together with rising costs for the room hire and low attendances in cold weather, it seemed sensible to restart our year in March.

The price we pay to the Museum for room hire has risen by 10% and as long as our present members all renew, we can just cover the cost however, it looks like a rise in our subs will have to happen next year. In addition, we are faced with the forthcoming ULEZ expansion in August, so where that will leave us later in the year will have to be decided.
